

IEEE Wireless Power Transfer Conference 2015

Technology, Devices, Systems

May 13-15, 2015, Boulder, Colorado, U.S.A.

www.wptc2015.org Submission deadline: January 30, 2015

Conference General Chair

Zoya Popovic, Univ. of Colorado, Boulder

TPC Chair

Khurram Afridi, Univ. of Colorado, Boulder

Finance Chair

Dragan Maksimovic (Univ. of Colorado)

Publication Co-Chairs

Zeljko Pantic (Utah State University)

Mike Kelsenberg (Escape Dynamics)

Publicity Co-Chairs

Regan Zane (Utah State University, Logan)

Dmitriy Tselikhovich (Escape Dynamics)

Industry Panel Co-Chairs

Kamil Grajski (Qualcomm), S. O'Driscoll (Google)

Poster Co-Chairs

Erich Grossman (NIST-Boulder)

Alenka Zajic (Georgia Tech)

Awards Committee Chair

Manos Tentzeris (Georgia Tech)

Local Arrangement/General Affairs

Jarka Hladisova (Univ. of Colorado)

Sean Korhummel (Univ. of Colorado)

Organizing Committee

George Ponchak (NASA), Jenshen Lin (Chair, MTT26),

Regan Zane (USU-Logan), Manos Tentzeris (Georgia

Tech), David Perrault (MIT), Seonjung Ahn (KAIST)

International Advisory Committee

Joungho Kim (KAIST), Naoki Shinohara (Kyoto University), Shigeo Kawasaki (JAXA), Luca Roselli (University of Perugia), Peter Russer (Technical Univ. of Munich), Alessandra Costanzo (Univ. of Bologna)

TPC Members (list not final)

Federico Alimenti (Univ. of Perugia), Ikuo Awai (Ryutech Corporation), Nuno Borges Carvalho (University of Aveiro), Debabani Choudhury (Intel Corporation), Ana Collado (CTTC), Damienne Bajon (ISAE, France), Giorgio Franceschetti (Univ. of Napoli), Ken-ichi Fujimaki (Sony), Apostolos Georgiadis (CTTC), Yahei Ishikawa (Murata Manufact. Co., Ltd.), Toshio Ishizaki (Ryukoku Univ.), Tatsuo Itoh (UCLA), Masaaki Kuzuhara (University of Fukui), Hai-Young Lee (Ajou University), Jenshan Lin (University of Florida), Stepan Lucyszyn (Imperial College London), Andrea Massa (University of Trento), Milos Mazanek (University of Prague), Junji Miyakoshi (Kyoto University), Mauro Mongiardo (Univ. of Perugia), Amir Mortazawi (University of Michigan), Kenjiro Nishikawa (Kagoshima University), Koichi Ogawa (Toyama University), Johannes Russer (Technical Univ. of Munich), Tomohiro Seki (NTT), Satoshi Shimokawa (Fujitsu Laboratory), Naoki Shinohara (Kyoto University), Hiroki Shoki (Toshiba co.), Ken Takei (Hitachi, Ltd.), Manos Tentzeris (Georgia Tech), Yoshiyuki Fujino (NICT), Young Jin Park (KERI), In-Kui Cho (ETRI), Kang Yoon Lee (Sungkyunkwan University), Masao Taki (Tokyo Metropolitan University)

Call for Papers

Driven by consumer awareness and demand for convenient charging, multiple technology approaches have been put forward and are active in the market. These approaches reflect the considerable growth in research and development of technologies for WPT. In response, a new technical committee of the IEEE MTT Society (TC-MTT-26) was formed in 2011 that focuses on wireless energy/power transmission, energy harvesting/conversion and related technologies. Following a successful meeting in Kyoto, Japan in 2012 (IMWS-IWPT2012), a new conference on wireless powering, rotating between Europe, Asia and North America, started in Perugia, Italy in 2013 and was followed by WPTC2014 in Jeju, Korea. The 2015 WPT conference will be held in Boulder, Colorado, USA, supported by TC-MTT-26, endorsed by TC-MTT-24 (RFID-Technologies) and hosted by the University of Colorado, Boulder. The meeting is intended to cover a broad range of areas related to devices, components, systems and applications of WPT across the electromagnetic spectrum.

Technical areas

1. Basic technologies for wireless power transfer systems
 - Near-field (inductive, resonant) power transfer
 - Microwave transmission and beaming
 - Coils, resonators, and antennas
 - Power management and power electronics for WPT
 - EMC/EMI, Shielding
2. Power transmitters and receivers for wireless power transfer systems
 - High-frequency power transmitters and devices
 - High-efficiency rectifying circuits and devices
 - Rectennas and rectenna arrays
 - Devices and techniques for energy harvesting and scavenging
3. Applications of wireless power transfer technologies
 - Mobile and personal devices
 - Home/Industrial-appliances
 - Electric vehicles
 - RF-ID and electronic tags
 - SPS and space/aeronautic applications
 - Medical and biological devices
 - Standardization, regulations and biological effects
4. Other device, system or application topics

IEEE Wireless Power Transfer Conference 2015

Technology, Devices, Systems

May 13-15, 2015, Boulder, Colorado, U.S.A.

Venue: University of Colorado, Boulder, U.S.A.

Web site: www.wptc2015.org

Important dates:

- Deadline for Submission of Preliminary Paper : **January 30, 2015**
Submission Guidelines: Authors are invited to submit no more than four-page paper in English. The paper should explain clearly the content and relevance of the proposed technical contribution. The paper will be peer-reviewed. Please use the On-Line-Submission system.
 - Notification of Acceptance : **March 5, 2015**
 - Deadline for Submission of Final Paper : **April 5, 2015**
 - Conference Date : **May 13-15, 2015**
- Accepted papers will appear in the WPTC-2015 conference proceedings and will be included in IEEE Xplore.
 - A WPTC-2015 Prize will be given to the Best Conference Paper , selected by the WPTC-2014 Awards Committee

Registration Fee:

PRESENTING AUTHORS MUST PRE-REGISTER BY April 30, 2015

(Only pre-registered paper will be published in the final technical program and IEEE Xplore)

	IEEE Members	Non-IEEE Members	Students and Life Members
Early registration (by March 31)	\$ 350	\$ 400	\$ 150*
Late (by April 30) and on-site registration	\$ 450	\$ 500	\$ 250*

Conference dinner reception, lunches and coffee breaks:

Conference registration includes coffee breaks, lunches, a welcome reception and a dinner on Thursday night*.

*dinner not included with student registration

Conference hotel: Millennium Harvest House, Boulder 1345 28th St, Boulder, CO 80302
www.millenniumhotels.com/usa/millenniumboulder/

Contacts: Organizing committee wptc2015@colorado.edu
